

High Definition TV Now Available From Local Telecommunications Company

For Immediate Release

August 4, 2005

EATONVILLE, WA – High Definition Television (HDTV) and Digital Video Recorders (DVR), some of the newest technologies in the telecommunications industry, is now available to digital cable customers of local telecommunications company, Rainier Connect

HDTV, with its wide screen, high digital resolution, you can enjoy your favorite TV shows, movies, sports and events with the most picture detail available in a broadcast signal, all in Dolby Digital surround sound. DVRs allow viewers to pause, rewind, and replay live TV at the touch of a button. You can skip back a few seconds, or record a show or an entire season, without tapes, timers, or VCRs.

New set top boxes are available to all Rainier customers. To schedule your free set top replacement, call Rainier Connect at 1-800-832-5725. If you are interested in our HD service or our DVR boxes, contact a Rainier customer service representative today to learn about pricing and availability.

About Rainier Connect

For over 95 years Rainier Connect has been a leader in providing advanced voice, data and video services to South Pierce County. The company is strongly committed to service excellence, customer support, and providing outstanding value in every solution they provide.
